

ALAN DICK BROADCAST'S ACQUISITION BY JAMPRO LEADS TO EXPANDED PRODUCT OFFERINGS

ICONIC EUROPEAN ANTENNA SUPPLIER NOW OFFERS FM AND DTV SOLUTIONS

Las Vegas, NV [April 16, 2012] -- Alan Dick Broadcast (ADBL) is now offering a full complement of FM antennas and DVB-T/ISDB-T solutions since its recent acquisition by JAMPRO Antennas, Inc. Effective immediately, customers can purchase a wide range of FM antennas, combiners and filters, as well as DVB-T broadband slot antennas and filters, rigid transmission line and components directly from ADBL and save on delivery charges. Jampro is a world leader in the manufacture and design of radio frequency components and antennas for radio and television transmission with headquarters in Sacramento, CA. ADBL, one of the oldest names in Europe for broadcast antennas, combiners / filters, towers and broadcast infrastructure service, is based in Cheltenham, UK.

Prime on the list of new offerings are FM side mount antennas, including vertical, horizontal and circular low and medium power models and broadband units. In addition ADBL will stock DVB-T broadband slot antennas, rigid transmission line and components, UHF & VHF bandpass and mask filters.

"Superior support and enhanced product availability for our collective customer-base is a major objective of combining our two industry leading companies," exclaimed Alex Perchevitch, Jampro's president. "We couldn't be more pleased to make Jampro's tried and trusted FM and DVB-T solutions easily accessible to Europe and beyond via ADBL's sterling sales and service operation."
