HTV SELECTS JAMPRO'S UHF COMBINER

Sacramento, CA (August 5, 2005) – Ho Chi Minh City TV (HTV) – the official television station of Ho Chi Minh City - has selected a 3-channel UHF Combiner from Jampro Antennas / RF Systems, Inc.

The combiner will accommodate the station's two UHF analog channels (Channel 30 and 32) as well as its DVB-T (digital) Channel 39. HTV, the number one station in Vietnam, was the first station in the country to test and broadcast DVB-T. The station selected the Jampro RCCC combiner based on the unit's excellent track record, sturdy construction and superior technical specifications.

About Jampro

Jampro Antennas Inc., established to answer the need for quality broadcast systems at a reasonable price, is a leading supplier of antennas, combiners & filters and RF components for every application in the broadcast industry. Reputed for innovation and customization, Jampro builds each system to the specifications of the individual broadcaster.
